VA Employee Commuting Survey 2011

VA Office of Asset Enterprise Management Employee Commuting Survey

Welcome to the VA Office of Asset Enterprise Management Commuting Survey. The results of this survey will be used to calculate the Greenhouse Gas emissions produced as a result of VA employee commutes to work. Collection of this data is necessary in order for VA to comply with Executive Order 13514: Federal Leadership in Environmental, Energy, and Economic Performance. The results of this survey will be compiled and analyzed and reported to both the White House and Department of Energy.

Responses are confidential and anonymous and cannot be linked to individuals.
In order to maintain individual confidentiality, no data from groups smaller than ten (10) will be released.

While participation in this survey is completely voluntary, VA will use the results to illustrate our growth and also highlight areas for development.

The survey should take approximately 15 minutes of your time to complete.

If you have any questions please contact EmployeeCommutingSurvey@va.gov.

We appreciate your participation and thank you for helping us make VA a better place to work.

Please click on the "Next" button to begin the survey. You can use the "Back" button located at the bottom of the page if you need to review and/or change your responses.
